Welcome to *Kalemat UAEU Library Newsletter*

December is the month of collecting achievements and statistics during year but it is a special month on so many levels, remembrance and celebrations marking the Golden Jubilee, the 50th anniversary of the founding of the state by Sheikh Zayed and his brothers, the rulers of the Emirates. The country and our university celebrated with the nation and so did the UAEU library. This edition of the library newsletter will cover some of those highlights. Along with bringing to light some of the important services the library offers the UAEU University Community.

# Libraries Digitization Department

Digital libraries are organized collections of information resources and associated tools for creating, archiving, sharing, searching, and using information that can be accessed electronically. The major purposes of digitization are to enhance access and improve preservation of library materials. UAEU Libraries has started this service since 2014.

The UAEU Libraries Deanship Digitization Unit offers the following Scanning services:

- Theses and dissertations: UAEU theses and dissertations are uploaded to UAEU Scholar works online website for global access through downloading and online reading. These materials are accessible worldwide.
- Materials for special needs students: We do scan and type (Arabic scripts) for the UAE University special needs students' books and other learning materials.
- Faculty members: Similar scanning services is provided to UAE University faculty members' books and other teaching materials.
- UAE Institutions/community: The same scanning benefit is extended to UAE higher educational institutions such as Higher Colleges of Technology (HCT), Presidential Affairs, the Police Department, Zayed University, and National Medical Library and so on.

## Department also Provide 3D Printing Services:

Since 2015, the UAEU Main Libraries have supported the completion of many affordable educational projects for engineering students as well as faculty members from several Colleges at UAEU

UAEU Libraries have offered free 3D printing services for Engineering students and other University projects. This paper provides the background to this implementation of 3D printing as a library service offered by the library and discusses and how the UAEU libraries managed 3D printing services to support more than 240 to 500 student projects. At the end of the initial three-semester-long project, the volume of projects from the Mechanical engineering students only increased from 240 to 500 per year.

## Uses of 3D printing at UAEU libraries can be grouped as follows:

### A. Engineering Applications,

### B. Medical Applications

### C. Arabic and Islamic Calligraphy

### D. Art and Design
