## Distinguished Employee

The Libraries Deanship held the Second Quarter 2022 Distinguished Employee Honoring Ceremony, during which Dr. Hamad Bin Seray, the Director of the Library, honored the distinguished employee Mouza Mohammed Al Kalbani from the Customer Service Section, on Wednesday, JULY 6, 2022, in the presence of the library staff.

### **Who is Mouza?**

My name is Mouza Al Kalbani. Master's degree in Private Law from UAE University, I joined UAE University Main Library in March 2020 as a Library Specialist - Law Research & liaison. I work with the public services and information services departments to fulfill reference duties across all disciplines.

I serve as a liaison with the Law college, consulting with teaching faculty and students in this unit about their specific information and research needs, I taught Law students and faculty the use of both print and electronic resources that would meet their research and information needs. I serve, in addition to the Law College, as a subject librarian for the Alumni Affairs and Student Affairs. During this year, I hold multiple projects such as a reading competition, a volunteer program, and new students' orientation. I also have a goal to educate the public and assist those in need by making use of a diverse collection of available resources. Finally, UAEU Libraries will continue to support the learning, teaching, and research needs of the University community.

# Headline News

The UAEU Library would like to thank all the participants in making the Engineering Challenge. The event took place on 5<sup>th</sup> of June in Dubai. We had the pleasure collaborating with publishing partners and with the College of Science our engineering students did an excellent job raising the profile of UAEU.

The KnE team in collaboration with Elsevier and Institution of Engineering and Technology (IET) had the pleasure of hosting the UAE Engineering Challenge award ceremony, which honored the participants and winners of the unique competition.

The competition challenged engineering faculties' students across UAE to solve multiciliary, real-life cases that are raised by companies around the world. Qualified teams were given access to Elsevier and The IET's online resources - including Knovel, Inspec and Inspec analytics - to help them build their case studies. The top four winning teams presented their work during the ceremony. Congratulations to the winning teams:

- 1st place: team "E-Force" from United Arab Emirates University
- 2nd place: team "Thunder" from United Arab Emirates University
- 3rd place: team "Genius Engineers" from United Arab Emirates University
- 4th place: team "Universe" from United Arab Emirates University
- 5th place: team "Jordanian Engineers" from United Arab Emirates University
- 6th place: team "Springers" from American University of Sharjah
